Question:

Write code and connections in wokwi for the ultrasonic sensor. Whenever the distance is less than 100 cms send an "alert" to the IBM cloud and display in the device recent events. Upload document with wokwi share link and images of IBM cloud.

OUTPUT:

When the distance is less than 100cm alertmessage will appear in the IBM cloud.

Connecting to Wifi..WiFi connected, IP address: 10.10.0.2
Reconnecting MQTT client to
5kqdnp.messaging.internetofthings.ibmcloud.com
IBM subscribe to cmd OK

While Distance is greater than 100cm there is noalert message in the IBM cloud.

IBM CLOUD OUTPUT:

The recent events listed show the live stream of data that is coming and going from this device.
